Learn How to Build a Low-Cost Online Income System From Scratch

Welcome

If you're reading this guide, chances are you've been looking for a simple way to make money online.

Maybe you've joined a few programs.

Maybe you've watched videos and read blog posts.

Or maybe you're completely new and don't know where to start.

I know exactly how that feels.

When I first started online, I spent months jumping from one opportunity to another. Every new program looked like the answer.

I joined countless sites.

I downloaded countless reports.

I watched countless training videos.

Yet I still wasn't getting the results I wanted.

The problem wasn't the programs.

The problem was that I didn't have a system.

Everything changed when I focused on three simple things:

- Getting traffic
- Building an email list
- Following up consistently

Once I started doing those three things, online marketing finally began to make sense.

That's exactly what you'll learn in this guide.

What You'll Learn

By the end of this guide you'll understand how to:

- ✓ Build a simple affiliate marketing system
- ✓ Create a lead generation system
- ✓ Build an email list
- ✓ Follow up automatically
- ✓ Get traffic to your offers
- ✓ Rebrand this guide with your own links
- ✓ Use it to grow your business

Bonus Included

I've already created a done-for-you capture page and follow-up email sequence for you.

You'll find the share codes later in this guide.

That means you can get started much faster than most others.

It shows you the path, but you are responsible for the journey.

Why Most Beginners Fail

Most beginners don't fail because affiliate marketing doesn't work.

They fail because they make a few common mistakes.

Mistake #1: Chasing Shiny Objects

Many people jump from one opportunity to another every few days.

Instead of building one system, they keep starting over.

Mistake #2: Never Building A List

Many marketers send traffic directly to affiliate links.

When visitors leave, they're gone forever.

Mistake #3: Quitting Too Soon

Online marketing takes time.

Many people quit before they give themselves a chance to succeed.

Mistake #4: Learning Without Taking Action

Some people spend months learning and never actually implement anything.

The successful people do the opposite.

They:

- ✓ Build one system
- ✓ Grow a list
- ✓ Follow up consistently
- ✓ Take action daily

That's exactly what we're going to do.

The 3 Things Every Affiliate Marketer Needs

Every successful affiliate marketer has three things.

1. A Product Or Service To Promote

Affiliate marketing is simply recommending products and services and earning commissions when someone joins or buys through your referral link.

2. Traffic

Traffic means visitors.

Without visitors, nobody sees your offers.

3. A Follow-Up System

Most visitors don't buy the first time they see an offer.

That's why building an email list is so important.

Many marketers say:

"The money is in the list."

And they're right.

Your Secret Advantage

Most affiliate marketers spend days or even weeks creating a lead magnet.

You don't have to.

This guide is already written.

Simply:

1. Replace the affiliate links with your own.

2. Upload the guide.
3. Start collecting leads.

You can literally have your own lead generation system running today.

That's what makes this guide different from most affiliate marketing reports.

Affiliate Offers

That's it.

No complicated funnels.

No expensive software.

No technical skills required.

Just a simple system that anyone can build.

Why Building A List Matters

Imagine 100 people visit your page today.

If none of them join your list, most will never come back.

Now imagine 20 people join your email list.

You can continue helping them.

You can send useful tips.

You can build trust.

You can recommend products they may find useful.

And you can do it automatically.

That's why building a list should be one of your top priorities.

The 3 Resources I Recommend Most

I've tested a lot of traffic and marketing resources over the years.

If I were starting over from scratch today, these are the first three resources I would focus on.

Each one helps solve a different part of the affiliate marketing puzzle.

Together, they can help you get more traffic, build your email list, and grow your online business.

1. Traffic Hoopla

Best For: Getting More Traffic

Traffic is the lifeblood of every online business.

Without visitors, nobody sees your offers, joins your email list, or buys your products.

Traffic Hoopla gives members access to advertising opportunities, traffic-building tools, downline builders, and promotional resources designed to help you get your message in front of more people.

If you're serious about growing your list, this is one of the first resources I recommend joining.

2. EZ Traffic Club

Best For: Consistent Daily Promotion

One of the biggest mistakes beginners make is promoting inconsistently.

They advertise for a few days and then stop.

EZ Traffic Club makes it easy to keep your offers in front of active marketers every day.

Use it to promote:

- Your capture page
- Your rebranded guide
- Your affiliate offers
- Your blog posts

The more consistently you promote, the more opportunities you'll have to build your list and generate commissions.

3. Free Promo Codes

Best For: Free Advertising Credits

Everyone loves free traffic.

Free Promo Codes gives members access to advertising credits, bonus promotions, and traffic opportunities across multiple platforms.

It's one of the easiest ways to stretch your marketing budget and get additional exposure for your offers.

Before spending money on advertising, I recommend checking for available promo codes first.

That's how successful affiliate marketing businesses are built.

The Tool That Powers This Entire System

Before we start building your affiliate marketing system, there's one tool you'll need.

That tool is LeadsLeap.

In fact, almost every step in the rest of this guide uses LeadsLeap in some way.

You'll use it to:

- ✓ Build your email list
- ✓ Create your capture page
- ✓ Import the done-for-you capture page included in this guide
- ✓ Import the done-for-you email series
- ✓ Host your PDF guide
- ✓ Track your links
- ✓ Generate traffic
- ✓ Promote your affiliate offers

One of the reasons I recommend LeadsLeap so highly is because it allows beginners to keep everything in one place.

Instead of trying to learn several different tools, you can focus on building your business.

When I first started online, I made the mistake of signing up for too many different platforms.

I spent more time learning software than actually building my business.

LeadsLeap helped simplify everything.

That's why the capture page share code and email series share code included later in this guide were created using LeadsLeap.

If you want to follow the exact system outlined in this guide, I recommend joining LeadsLeap before moving on.
